

Press Release—for immediate release

**DOCOMO ASIA and EXEO GLOBAL partner to provide network construction
and develop solutions for digital transformation in Southeast Asia**

Singapore, March 3, 2021—NTT DOCOMO ASIA Pte. Ltd. and EXEO GLOBAL Pte. Ltd. announced today that they have reached a basic agreement to collaborate on network construction and solution development necessary for the provision of 5G solutions, which will help Japanese enterprises in Southeast Asia achieve digital transformation (DX).

In Southeast Asia, especially in Singapore, Thailand, Indonesia, and Vietnam, where many Japanese enterprises are expanding their business, there is a growing need for DX such as reducing equipment downtime, cutting travel expenses, and increasing production capacity. DOCOMO ASIA and EXEO GLOBAL are proud and committed to work together providing 5G solutions, software and security, and network construction such as Wi-Fi networks and Private 5G.
