NTT DOCOMO ASIA and GAOGAO Forge Partnership to Advance Web3 Solutions in Southeast Asia

Singapore – 17th February 2025 – NTT DOCOMO ASIA, a bringing the NTT DOCOMO Group's innovative technologies to Southeast Asia, and GAOGAO, a prominent engineering solutions provider, have announced a strategic partnership to accelerate the adoption of Web3 technologies in the region.

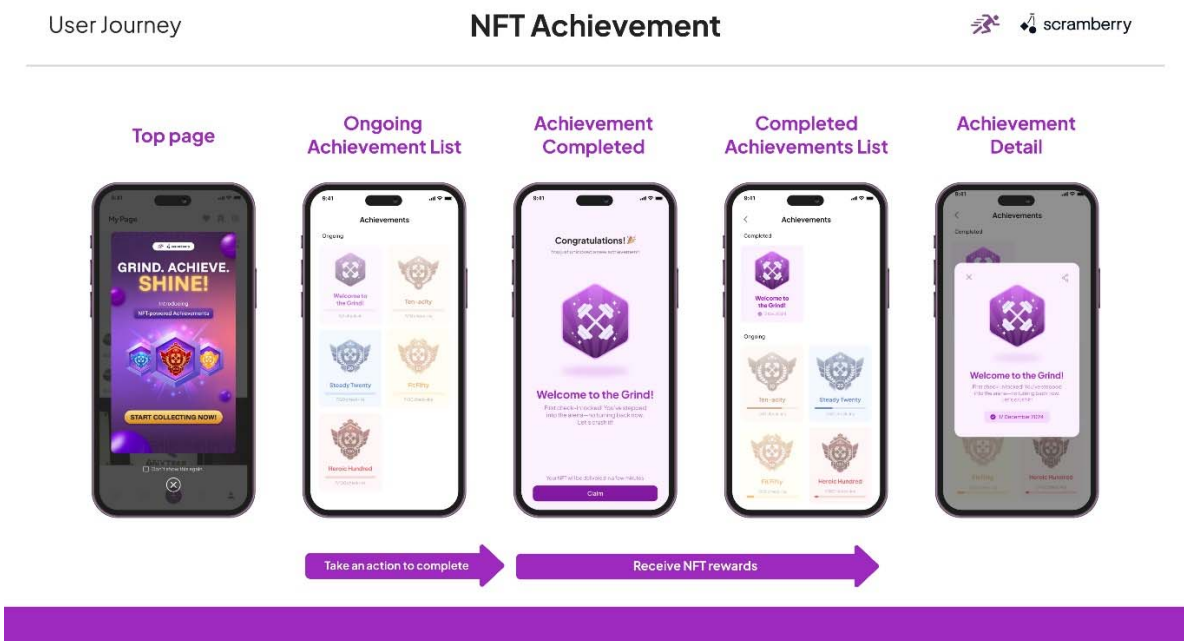

This partnership centres "*scramberry WALLET SUITE*", a secure and user-friendly suite of APIs/SDKs developed by NTT Digital, a subsidiary of the NTT DOCOMO Group. The *scramberry WALLET SUITE* enables the seamless development of Web3 wallets. With GAOGAO's expertise in Web2 and Web3 application development, the collaboration ensures businesses can access end-to-end support, bridging the gap between technical tools and complete Web3 integration services.

GAOGAO has already demonstrated this integration through its wellness app, Anytime Journey. By incorporating *scramberry WALLET SUITE*, the app now provides NFT-powered experiences to over 18,000 users as of January 30, 2025, enhancing engagement and delivering innovative fitness solutions.
